IMPORTANT NOTICE:

The program could be modified without prior notice and does not represent any explicit contract with the possible participants.

The event.

The aim of the “17th International Vintage Microcar & Bubblecar Meeting” is to spend a full weekend enjoying our passion, and sharing it with the rest of the people attending the meeting.

We will not only enjoy our microcars, but also the gastronomy, the good weather and the good atmosphere sharing our friendship.

That's why we have chosen once again the village of Sitges, a great place where the sea, the routes to the coast, the food and culture will be a unique experience for all the participants.

Location.

Sitges has always been a place that has entranced artists, tourists and, in general, visitors from all over the world.

For many, the secret is its light, as reflected painters, sculptors and writers that at the end of the 19th century were living here.

Nature has been generous with Sitges, has the privilege of being located in the coast of the Mediterranean Sea and close to the El Garraf massif.

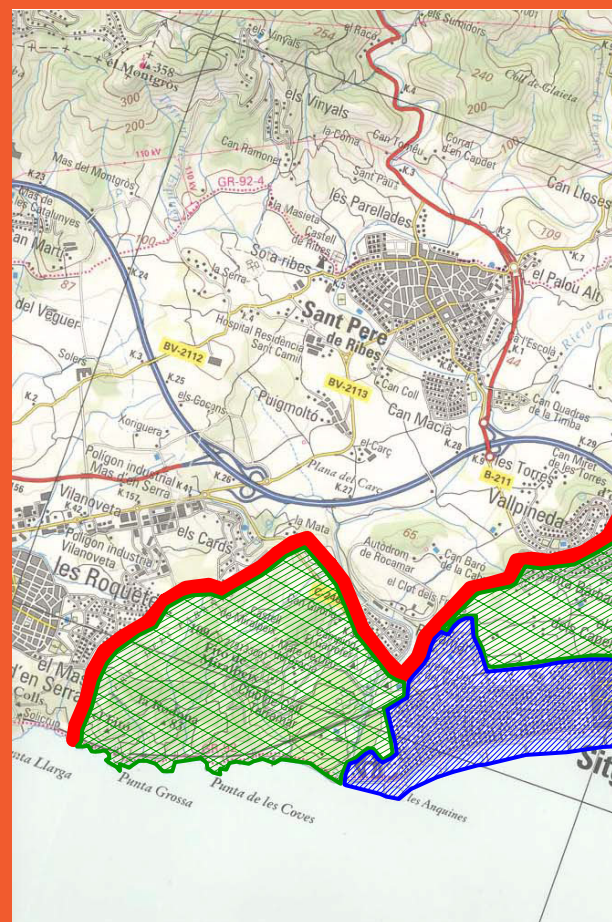

In the cultural sphere, the legacy is extraordinary, the art is alive and the traditions keep up with modernity.

Sitges has preserved important medieval references and this former fishing village offers to the visitors an important architectural heritage.

Sitges continues being a city that attracts and seduces people.

The route.

Saturday, May 18 (MICROS 100)

For the first time in the program of the International Meeting of Microcars we've prepared an adventure tour for our small vehicles.

Micros 100, a route of 100 kilometers that we will do with our classic microcars for the regions of Garraf and Penedès.

We will leave Sitges and pass through different towns, some well-known, others quite unknown, but all of them with the charm of the typical landscape of vineyards, cellars and wineries, which make this land a renowned place in the wine world.

Sant Pere de Ribes, Sant Pere Molanta, Sant Miquel d'Olió, Cal Rubió, Castellví de la Marca, La Carroya, Sant Jaume dels Domenys, Llorenç del Penedès, Banyeres del Penedès, Arbós, el pantà de Foix, Torrelletes, Masuques, the Múnia, Canyelles, etc., will be some of the villages that will enjoy the parade of our cars.

A hundred kilometers without limits, everyone at their own pace, to make the route comfortable. We will all of us the same route, with a good guide and a good road book, eating together and having a stay to enjoy this little-seen landscape, soul of the Cava and the Wine of the Penedès.

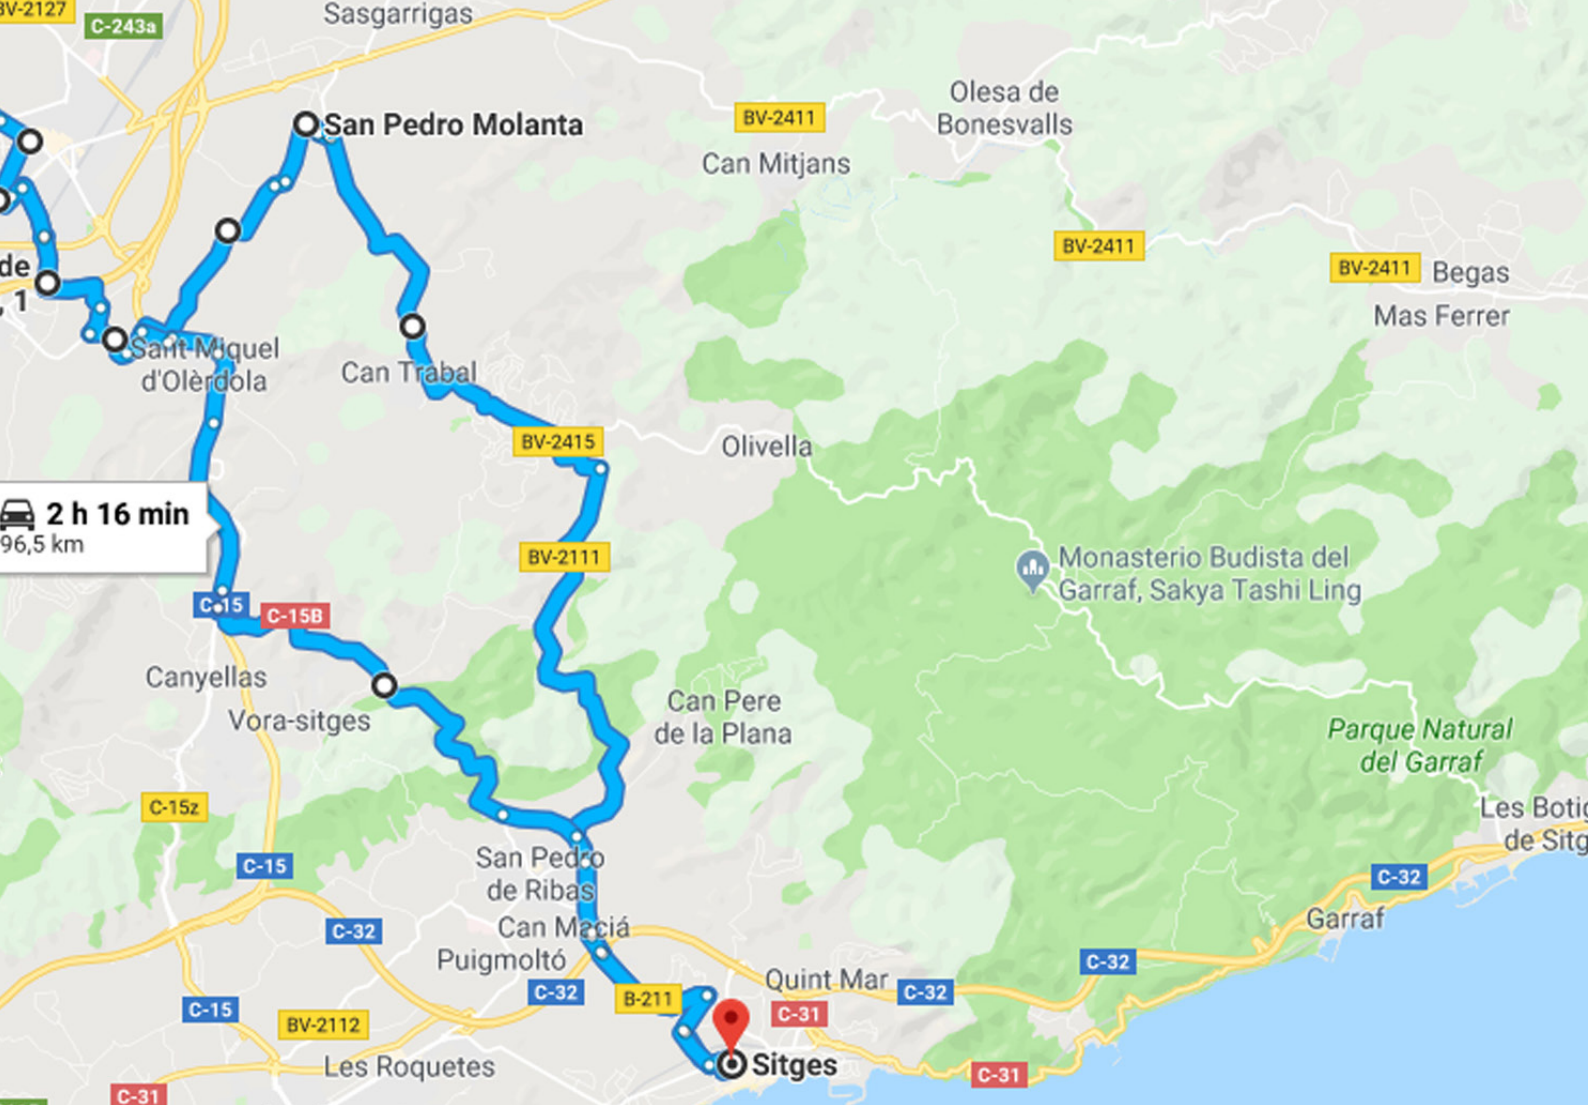

In the afternoon, great arrival in Sitges, in the paddock of the Plaça de la Fragata, final goal of the Micros 100, a first edition that puts the first stone, that will be a tradition, year after year as well we want it.

Sunday May 19 (see map on the next page)

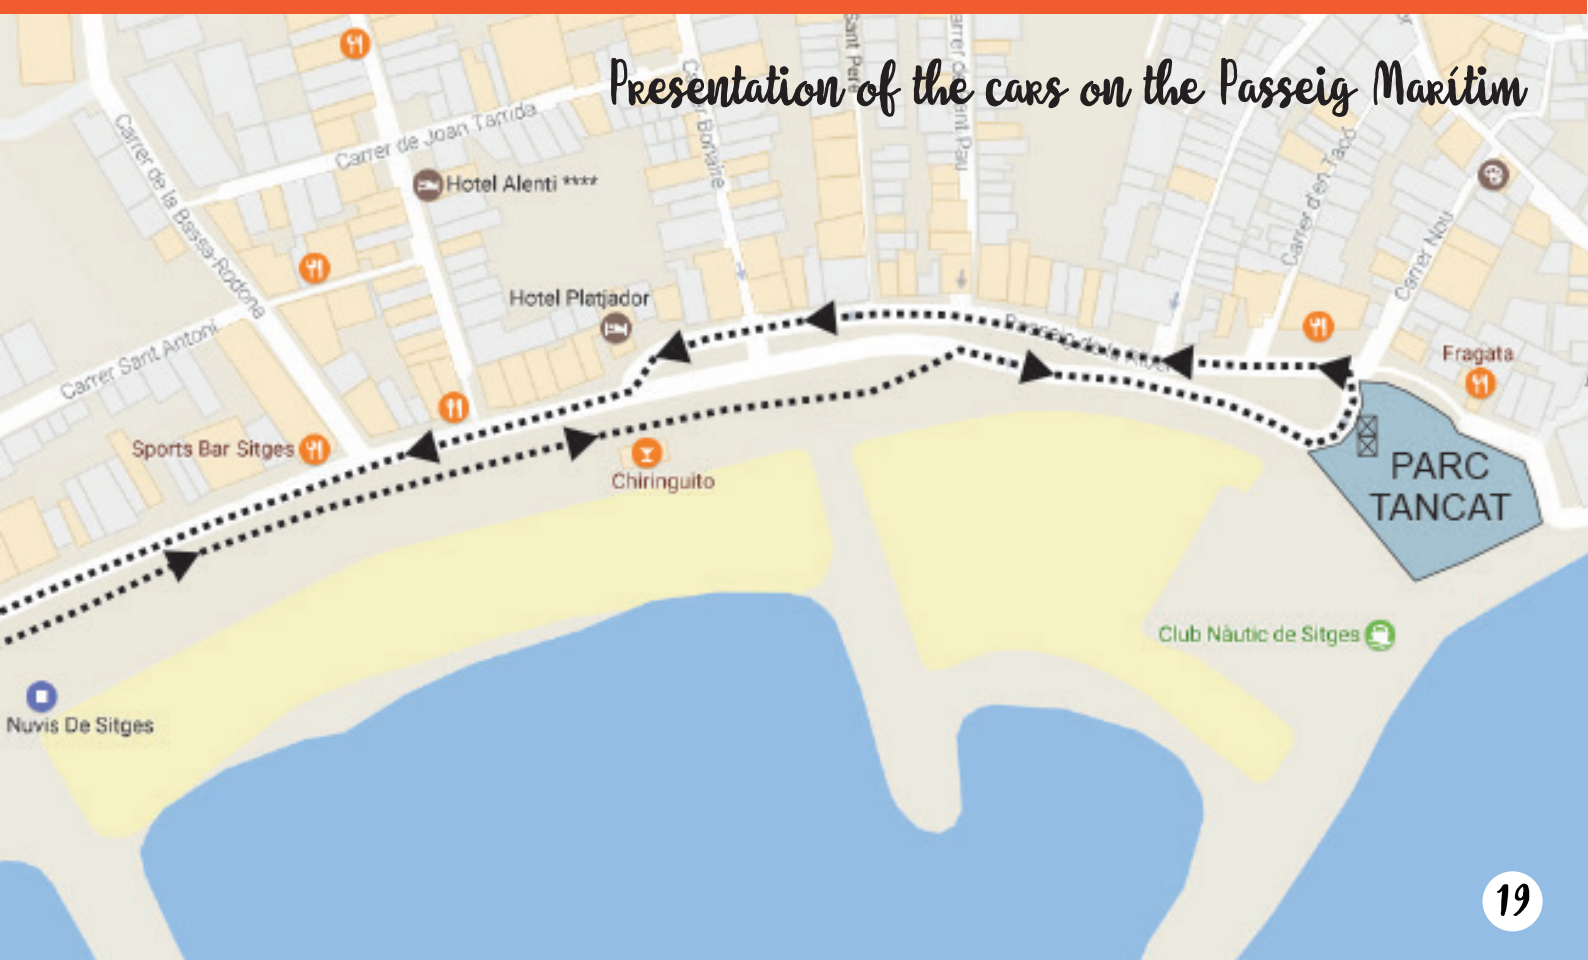

Visit to the Railway Museum of Catalonia, in the city of Vilanova y la Geltrú.

Return to Sitges by the same route.
