# Presentation

*Appreciated passionate about microcars,*

*If you are reading these lines, surely you have an interest in classic microcars and, if so, you have in your hands the program of one of the best events that will be held this year in southern Europe dedicated to small post-war utilitarians.*

*As you can see we have prepared a list of activities to enjoy the Microcoches in Platja d'Aro, walking through the Empordà and sharing our hobby, good landscapes, gastronomy and, above all, good company.*

*This time we have combined the annual concentration that we traditionally do in September, with the International Microcoches Meeting, which is biennial. So, this year we will do the Week in the Costa Brava from the 12th to the 15th September, which has its specific program, and the international one, which will take place from the 16th to the 18th of the same month.*

*We hope that all those who can not enjoy the strollers for a whole week sign up for the weekend event, which has the options of three, two or one single day. We strongly advise against the latter, as the multi-day program complements very well and a single day wouldn't be enough.*

*You can start tuning of your cars as the Micros 100, the 100 km route we will do on Saturday, will require a certain mechanical reliability. But don't be scared, since we will do the first 60 km in the morning, and the remaining 40 km in the afternoon, always at our pace, according to the strength of the car and the preference of the driver. Additionally, we will always be followed by the mechanics and the crane service of the organization.*

*On the same Saturday we will make a presentation of the cars to the public of Platja d'Aro, being a true contest of elegance, where we can show off our beloved cars, showing what they are and what they were, to a normally curious public who seems to be seeing them for the first time.*

*After three years on hold due to the pandemic, we are back on track and we want this event to be a success, thanks as always to your participation! We hope that you send us the registration form by email or personally to the club, which are the only two ways to sign up, and that you come to the Costa Brava with all the enthusiasm to which you have accustomed us.*

*We are looking forward to seeing you, as we are sure we will have a good time! See you in Platja d'Aro!*

*THE ORGANIZING COMMITTEE*

# Program

13:30 h. Lunch in harbour of Platja d'Aro.

15:30 h. Delivery of trophies. End of the meeting.

# LOCATIONS OF PLATJA D'ARO

# Route

## Friday 16th September

---

Route along secondary roads until you reach the old town of Pals. During the tour we will go through several points where we will see rice paddies and fruit trees with the castle of Montgrí in the background, which will accompany us throughout the route. Once in Pals we will visit the old town and the rice fields in a small tourist train. The route will be completed with the return passing through several towns and municipalities with the charm of the Empordà Region.

## Saturday 17th September (MICROS 100)

---

For the second time in the program of the International Microcar Meeting we have prepared an adventure tour for our small vehicles.

This is the Micros 100 a route, of 100 kilometers that we will do with our classic microcars by the Empordà Region.

We will leave Platja d'Aro and pass through different towns, some well known and others quite unknown, but all of them with the charm of the typical landscape of the Costa Brava.

Platja d'Aro, Llagostera, Tossa de Mar, Lloret de Mar and Sant Feliu de Guíxols will be some of the points where the second Micros 100 will pass.

One hundred kilometers without limitations, each at its own pace, with freedom and comfort, without haste or restrictions. We will all follow the same path, with a good guide and a good road book, we will also eat together and return again to Platja d'Aro.

And in the afternoon, great arrival to Platja d'Aro, with presentation of the vehicles in s'Agaró avenue.

## Sunday 18th September

---

Tour for the most touristic area of the municipalities of Platja d'Aro, Sant Antoni de Calonge and Palamós. The route passes near the sea and, once in Palamós, the visit to the Museum of Fishing and its old town will serve to better know the reality of the Mediterranean Sea and its inhabitants.
